# CONCEPT **Z** SLD

See what all the buzz is about! The original Concept Z rocked the industry with its groundbreaking CZB technology. Pushing the edge of design, engineering, and materials forward is what the Z SLD is all about. The NEW Concept Z SLD doesn't disappoint, it starts with the new SLIDE magnetic cast control system located in the perfect place for anglers to adjust without missing a single cast. Control casting downwind and then upwind on alternating casts with a flick of the thumb. Pitch, flip, or just let it fly by combining or isolating the Low-Friction Centrifugal braking with the magnetic SLIDE braking. Zero Corrosion CZB Bearings and an Advanced Polymer drag system are placed within the new rock-solid Cast Iron Carbon frame and side plates. This design sets the new bar for material innovation.

- Slide Magnetic Cast Control System
- CZB Bearing Technology
- Hi-Tech Cast Iron Carbon Frame and Side Plate Construction
- Ti-Armor Aluminum Hamai Cut Drive Gear
- 20 lb / 9 kg Advanced Polymer Drag System
- Alert Drag Clicker
- Zero Ball Bearings (6 CZB Bearings, 1 Dead Stop Anti-Reverse)

- Trick Shop Compatible
- Arrowhead Line Guide
- Reinforced Clutch Cam
- KeepR Integrated Hook Keeper
- Generation II Hard Anodized Worm Shaft

## CONCEPT A2

The Concept A Gen II is the ultimate fishing partner. Tough as nails, reliable, and more capable than ever, you won't ever leave this reel at home. The new Bulldog Carbon Drag system is back and ready to take on the biggest trophy fish you can find with 25 lbs. of stopping power. Equipped with our H.A.M. hardened brass main gear and cut with Japanese Hamai precision, it's a formidable weapon. The ultra-low profile palm fitting design now features 25% more line capacity without increasing the overall size of the reel. Strength and durability of the Concept A Gen II can be seen through new design features like it's Railed Clutch Cam, Gen II Line Guide, and new Water Channeling Design intelligence. It's packed with unique and patented 13 Fishing only features like the Arrowhead Line Guide, Beetle Wing Rapid Access Side Plate, and KeepR Integrated Hook Keeper. A new Low-Friction Braking system provides anglers with smaller more relevant adjustments for all lure weights. The Concept A Gen II delivers the performance, reliability, and features you need for day after day tournament-level fishing.

# INCEPTION

Born from a pedigree of excellence, the 13 Fishing Inception Casting Reel is a feature-packed reel designed to deliver the performance you demand - without having to eat ramen for weeks to save up for it. Constructed with a rigid HD Aluminum frame and re-enforced graphite side plates, it has the strength to battle the largest fish at the highest level of competition. A fish-catching workhorse of a reel that anglers of all skill levels (and budgets) can appreciate, its eight-bearing system, comprised of 2 Japanese high spin bearings, 5 stainless steel bearings and an Instant Stop Anti-Reverse bearing, delivers consistently fluid functioning. Japanese Hamai Cut Gearing also offers a smooth transition of power from the handle, and the advanced drag system with multi-material oversized drag washers provides up to 18lbs of max drag to stop big fish in their tracks. Also equipped with a 6-way centrifugal braking system for complete cast control, the High Spin Spool System helps provide increased casting distance and accuracy as well. Available in both a versatile 6.6:1 and lightning fast 8.1:1 gear ratio, the 13 Fishing Inception Casting Reel is a true performer available at a very reasonable price.

# ORIGIN C

Judge this reel by its cover. Ominous matte white and blacked out components give this low-profile reel a menacing look. Our upgraded high-spin casting system and high-spin bearings provide consistent and exact casts that leave nothing to be desired. Fortified by a lightweight HD aluminum frame and 18 lbs of multi-material drag, the Origin C won't stutter when winching your monster fish from the heaviest cover.

# ORIGIN F1

The F1 takes pole position in its category of reels, its sleek and low fastback body shape is a departure from outdated reel designs. The Venti 20LB 6 Disk Carbon Drag System works in conjunction with the Instant Stop Anti Reverse to put down the power and stamp out any hope a fish has at escape before being photographed. The F1 carries features never seen before in its category like the long casting Arrowhead Casting System, and Beetle Wing Side-plate that allows for rapid spool exchanges. If you want more for less this 7 bearing reel claims the top spot on the podium.

# MUSE BLACK

Lighter, tighter, and more sensitive - you've heard it a million times, but this rod is it. It's not just the tech that makes the Muse Black one of the baddest rods out there, it's also the attitude that we put into each hand constructed taper. From 40 ton graphite to Fuji guides it conquers the gnarliest fish out there. The Evolve Airfoil Carbon reel seat transmits kinetic energy directly into the anglers' palm while anchoring the anglers' hand to the rod. Since its beginning, the Muse series has been designed around technique specific applications that provide anglers the elite piece of equipment they've come to expect.

# OMEN GOLD

It's not unusual for greatness to come in small shapes. A descendant of the acclaimed Omen series, Omen Gold is for those who want mobility – without compromising quality. These rods come in lengths and actions suitable for freshwater and saltwater fishing. The shorter rods are ideal for targeting trout with spinners, soft baits and hardbody lures, while the larger range provides actions heavy enough to take on sea trout and other saltwater species. The Omen Gold rods come with a rod tube, ensuring effortless and safe transportation.

# FATE V3

Fresh from the lab, Fate V3 has broken out of its test tube and is here. Without trying to re-invent the wheel, we added Evolve Soft Touch custom reel seat and Airfoil Carbon grips to manufacture grip and feel at absurd levels. The PVG 36T graphite blank decreases the weight and increases the sensitivity pushing the blank to be that much better'er. This rod is 100% gluten-free in order to be lightweight but we also managed to include tangle free guides with Zirconia inserts. Most importantly, we added the Snaggletooth hook keeper because it turns out that people like to store the baits in between uses.
