

Puukko, the Nordic knife, has traditionally been the most important survival tool in the harsh Arctic environment. It was the one go-to tool everyone carried and it was used for making firewood and kindling, for hunting and fishing, for cleaning the catch – be it fish or game – for cooking and eating, and at the most extreme situations, the knife could be used to defend oneself from the dangers nature had.

No one left home without a knife and everybody learned how to efficiently use one already at young age. There were – and still are – different knives for different users, all matched to the needs and capabilities of the user. And for festive occasions there were decorated knives that could be used as functional accessories for the clothing.

The Marttiini story began in 1928 at the land of dark Arctic winters and the summer midnight sun, when blacksmith Janne Marttiini decided to establish a knife factory to Rovaniemi in Finnish Lapland.

With the user in mind, he began to create beautiful, high quality knives to be used in the harshest conditions imaginable – knives for people that used them every day and whose life could even depend on the knife.

But don't let the knife's beauty fool you. The moment you put one to a test, you'll be convinced it is the perfect tool for your need. You feel the sensation of natural materials like leather, curly birch, reindeer antler, and of course the ultra sharp blade always made from finest steel.

Today Marttiini knives are a combination of generations of craftsmanship heritage and modern technology that create knives that are not only sharp, but also perfectly represent the beauty and toughness of the North. They're called "puukko" – the Nordic knife.

FISHING KNIVES

Martiini's fillet knives have been in production for over 50 years and they are the world's favorite fillet knives – and legendary for their sharpness. With the long history and expertise, the features on the knives are honed to perfection. The blade lengths and flexibility are always perfectly matched to the size of the catch.

The handles are designed to offer a firm, comfortable and safe grip in all conditions. The fillet knives are also available with Martef coated blades that have a super low friction for easy filleting and are very easy to clean.

FISHING KNIVES

BASIC FILLETING KNIFE 10

Better filleting for a good price! The well fitting rubber handle and the flexible stainless steel blade ensure clean-cut fillets. This size of blade is best suited for processing small fish, such as trout and perch. The filleting knife is an excellent tool for other jobs in the kitchen. The knife is supplied with a practical plastic sheath.

OUTDOOR KNIVES

Knife is an integral part of outdoor life. It's an all-round tool that everyone should have on their belt, in the backpack or as part of the camping gear. Just like the traditional Nordic knives, the more modern outdoor knives bear the Marttiini heritage: functionality and uncompromising quality.

Marttiini Outdoor Series features knives for the people who enjoy their time outdoors, hiking and crafting. The smallest knives are designed for children that are learning their knife skills. They are very popular among younger scouts.

OUTDOOR KNIVES

TUNDRA CB

The Tundra is a full-blooded bushcraft all-round knife for the demanding user. This bushcraft knife is designed for heavy-duty use. Made of high-strength stainless steel, the full tang structure and robust blade provide excellent durability. The blade and the full tang are 3.5 mm thick. On this knife, traditional materials go hand in hand with modern design. The handle is made of Finnish curly birch. The red details on the handle and leather sheath seal the dynamic look. The Tundra knife is available with two handle options: deadwood-like, gray-waxed curly birch (Tundra GR) and natural-colored, waxed curly birch (Tundra CB). The surface of the waxed wood and the design of the handle ensure a firm grip. The sturdy leather sheath is reinforced with rivets. If needed, the knife handle parts can be re-tightened. The screw has a Torx T10 head.

OUTDOOR KNIVES

ARCTIC CIRCLE KNIFE

A small handy knife for smaller jobs. Marttiini's northern history was the inspiration for this knife. The light coloured sheath and handle are inspired by our bright summer nights and the dark winter months are represented by the dark blade. Lapland is indeed a land of contrasts. The blade is made of carbon steel that is perfect for carving and is easy to re-sharpen to its original sharpness. Remember to take proper care of your carbon steel knife: always dry the blade carefully after each use and oil the blade with unsalted oil on a regular basis. This will ensure your knife will serve you loyally from one year to the next.

FEATURES

- Blade length: 9 cm
- Overall length: 20 cm
- Blade: Stainless steel

HUNTING KNIVES

MARTEF HUNTERS KNIFE

Martef-coated hunting knives are excellent tools for hunters. The dirt and moisture repelling Martef coating reduces friction to almost zero whilst protecting the blade against corrosion. Due to the coating the blade moves extremely smoothly through cut meat or fish, and cleaning the blade after use is extremely easy. This knife works like a dream for both cutting and butchering meat. The familiar handle design is combined with a stainless blade suitable for cutting meat, which is coated with Martef to reduce friction and make your cutting chores easier. The leather sheath is practical for carrying the knife with you on your hunting trips.

FEATURES

- Blade length: 15 cm
- Overall length: 27 cm
- Blade: stainless steel, Martef
- Handle: rubber, Orange
- Sheath: leather, black

HUNTING KNIVES

MARTEF SKINNER

Martef-coated hunting knives are excellent tools for hunters. The dirt and moisture repelling Martef coating reduces friction to almost zero whilst protecting the blade against corrosion. Due to the coating the blade moves extremely smoothly through cut meat or fish, and cleaning the blade after use is extremely easy. The Skinner Martef knife is the most frequently sold knife in the Hunting series. The blade is produced from stainless steel and by design it is excellent for both skinning game and for carving. The textured orange rubber handle and the finger guard ferrule ensure a good grip in demanding conditions. The knife is supplied with a black leather sheath.

FEATURES

- Blade Length: 11 cm
- Overall Length: 23 cm
- Blade: stainless steel, Martef coating

HUNTING KNIVES

CONDOR SKINNER

This model won the hunting knife test in the ERÄ magazine. It is one of the most popular Marttiini hunting knives. The textured rubber handle and the finger guard ensure a safe and firm grip in the most demanding forest conditions. The easy to maintain stainless chrome steel blade maintains its sharpness for a long time. The design of the blade is extremely suitable for handling game, whilst carving is also effortless with this knife. For sharpening we recommend the Marttiini diamond sharpener.

DESIGN KNIVES

Marttiini Design knives are especially impressive and elegant gifts or collectors' knives: Design products that – in addition to being functional knives – are also designed to please the eye.

Knives featuring antler bone on the handle are decorated with engravings. The same motifs are repeated on the sheath. Elaborate handles are made of reindeer antler bone and curly birch.

Many Marttiini Design knives have a story to tell: memories, history, traditions, celebrations.

DESIGN KNIVES

WILD BOAR

The latest addition to Marttiini animal-themed bushing knives is the Wild Boar knife. The Wild Boar knife is much like the animal it draws its inspiration from: strong, noble and durable. The bushing of the knife is the wild boar head cast in bronze. The curly birch handle is color waxed to withstand use and to ensure a good grip. The razor-sharp blade is made of durable stainless steel. The knife comes in an elegant wooden box, making it a perfect gift.

SHARPENING & ACCESSORIES

Behind the legendary Marttiini sharpness lies a combination of high-quality materials and uncompromising craftsmanship. To keep your knife sharp and ready to work, use a sharpening stone, a sharpening steel or a diamond sharpener to fine tune the cutting edge regularly.

KNIFE ACCESSORIES

DIAMOND SHARPENER “PEN”

A diamond sharpener pen is perfect for the sharpening of Marttiini kitchen knives and filleting knives. With the diamond coated sharpener you can sharpen harder blade materials such as stainless chrome steel. This sharpener design is especially suitable for filleting knives and kitchen knives, but it is also used for for ice augers, skinning knives and gutting hooks. The sharpener also includes a sharpening groove for hooks.

KNIFE ACCESSORIES

DIAMOND SHARPENER FLAT

With the diamond coated sharpener you can sharpen the harder blade materials. such as stainless chrome steel. The oval shape of this sharpener is best for sharpening products that have a curving blade. such as skinning knives. augers. scythes and sickles. The sharpener is also excellent for sharpening filleting knives and kitchen knives. The sharpener consists of two surfaces with different grit grades: first the blade is sharpened with circular movements on the rougher side. after which the blade edge is finished on the finer side by removing the circular marks. The sharpener also includes a groove for sharpening hooks. The roughened handle gives you a good grip. Use water while sharpening, then wash and dry the sharpener after use.
