

AT STORM, WE'RE SERIOUS ABOUT FISHING

Non-fishermen might even see us as obsessive. We believe in getting into the head of a fish to really understand what's going on... like what makes a fish bite. We build our lures based on those findings because we know that you're serious about fishing too. So get out there and do what you need to do to find them & catch them.

CASTING

BISCAY SANDEEL

Built to imitate a prominent saltwater prey, Biscay Sandeel features a long, slender body and a perfectly matched head with a fixed hook. An additional chin eyelet gives the option of adding an assist hook or blade. This weighted head & body combination allows you to cast further in windy coastal conditions, and fish faster in rough water or when an aggressive presentation is needed. The subtle paddle tail kicks with a life-like action and incredible vibration, even at slow speeds. Both body sizes are available in two options; lighter head for cast and retrieve techniques and a heavier head option designed for vertical jigging even in strong currents. Every Biscay Sandeel is extremely visually detailed with each body perfectly color matched to its own jig head. Rigged with a heavy duty VMC® hook. Head includes eyelet to add optional stinger hook.

CASTING

BISCAY MINNOW

Not for the faint of heart, the Biscay Minnow casts long and fishes fast. With its aerodynamic design, this bait was born to face the rough winds and waters of the coast. The Biscay Minnow's subtle paddle tail kicks with a lively action and incredible vibration – even in slow presentations. And when in need of an extra edge, a hook or blade can be attached to the eyelet on the jig head.

FEATURES

- VMC Coastal Black® hook with keel weight.

CASTING

BISCAY DEEP MINNOW

Scan the coastal depths with the Biscay Minnow Deep. Designed for deep sea jigging, this bait drops deep and swims with vibration and life-like kick. To make sure the predators won't know the difference, the Biscay Minnow Deep comes in 15 color finishes. The jig head comes with an eyelet for an optional stinger hook.

FEATURES

- VMC Coastal Black® hook with keel weight.

CASTING

BISCAY SHAD

Life-like from the moment it hits the water, the Biscay Shad is a showcase of imitation. With its articulated body and head, the bait swims with a realistic action – all the while keeping the VMC hook neatly hidden in the bait’s weedless system. When attacked, the Biscay Shad’s body collapses, exposing the large hook gap for a clean hook up. The bait’s weighted head-and-body combination allows for long casts and aggressive presentations, making the Biscay Shad the perfect for windy coasts and rough waters.

CASTING

BISCAY DEEP SHAD

Always rolling in the deep, the Biscay Shad Deep is your new favorite deep diver. The bait's composition results in an enticing show as it drops, while the weedless design makes snagging a thing of the past. The life-like action is complemented by the extremely detailed design of the bait, with each body perfectly color-matched to its jig head. Optimal for deep sea jigging, the Biscay Shad Deep takes you right where the predators of the deep lurk.

BISCAY GIANT JIGGING SHAD

Jig it deep and jig it hard; the Biscay Giant Jigging Shad is built to fish in very deep water with an array of methods. Rigged with a premium VMC needle point hook, each Biscay Giant Jigging Shad comes packaged with 1 jig head and 2 soft body tails.

FEATURES

- Interchangeable head/body construction
- Holographic swimmin' flash foil on head and body
- Includes 1 jig head and 2 soft body tails
- Rigged with a premium VMC® needle point hook

CASTING
HIT SHAD

Built with super-soft body for extremely responsive action, Hit Shad features dual-injected and highly detailed, printed patterns designed specifically for the European zander and freshwater predator fishing. Hit Shad has a slow body roll and exaggerated tail swing. This shad profile bait can be customized by cutting or removing the "tail tendon" for a wider tail action. Swims on both retrieve and free fall. Feature belly and back slots for easy rigging and maximizing hook gap.

FEATURES

- Extremely responsive action
- Adjustable tail for super-slow presentations
- Dual-injected and digitally printed color patterns
- Life-like presentation

CASTING

BOOM SHAD

As you might guess, this bait packs a lot of boom. The Boom Shad's pronounced body, slender wrist and wide paddle tail produce a rolling action with a lot of belly flash, even at low speeds. Combine this with a presentation that imitates a wounded fish on the run, and the results are irresistible. The bait's larger sizes (7" and 9") are ideal for pike angling, whereas the smaller sizes (3" and 4") are great for targeting perch and European zander. The Boom Shad is finished with a realistic design, making it the predator anglers' dream.

FEATURES

- Big Paddle Tail Action
- Dual Injected Colors
- Designed for European Predator Species
- Smelt Scent For Added Attraction

R.I.P T-BONE

The R.I.P. T-Bone has been slimmed down and stripped of all unnecessary weight to give you a more responsive soft bait that's 30% lighter than a soft bait of equivalent size. The 'T' shape stabilizes the lure even at high speed retrieves and allows the body to easily collapse when attacked, exposing the hooks for a better hook up rate than any other similarly-sized shad.

FEATURES

- 30% less weight than a soft bait of equivalent size
- Body collapses when attacked, exposing the hooks for a better hook up rate than any other similarly-sized shad
- T shape stabilizes the lure even at high speed retrieves
- Features 3D pectoral fins and a textured full-body rib pattern which create vibrations underwater

CASTING

V-SLAB

Following in the footsteps of Storm R.I.P. T-Bone's unique weight-watcher construction, Storm V-Slab is a lightweight, high profile soft plastic lure for large predators. The hollow-back design allows for a considerable lighter body without losing anything on size and profile. The hollowed-out construction with thin side panels undulates on the retrieve and collapses on hook-set, greatly improving the hook-up rate. Paddle tail creates a wide kicking action. Can be rigged weedless with an off-set single hook or with a two treble hook rig with pins attached to reinforced rigging spots in the belly of the bait.

CASTING

GO-TO GRUB

When the bite gets finicky, it is time to call in the specialist. The Go-To Grub is a secret weapon for catching zander and perch in the cold waters of the North. Appealing to freshwater predators, this bait's swim presents a light vibration pattern – thanks to its long and thin curly tail. Finished with dual-injected colors, the Go-To Grub is an offer the fish simply can't refuse.

FEATURES

- Ribbed Body for Added Vibration
- Oversized Tail for Extra Attraction
- Designed for European Perch & Zander
- Dual-Injected Colors

CASTING

JOINTED MINNOW

Who said less is more? The Jointed Minnow boasts a multi-segmented body with an added body roll that results in a realistic, yet lively and hard-kicking action. To guarantee easy presentation, this bait has a near neutral buoyance and balance. Keeping up with the down-sizing trend, the Jointed Minnow's two sizes (2,5" and 3,5") effortlessly cover the needs of perch and European zander anglers.

FEATURES

- Multi-Segmented Body
- Kicking Action With Added Body Roll
- Designed for European perch and zander
- Smelt Scent for Added Attraction

CASTING

SLOP HOPPER

A well-proven body shape – combined with a versatile action – makes the Slop Hopper an easy favorite for dropshot fishing. When sinking, this soft bait presents a horizontal sinking action with a slow flutter. As the Slop Hopper is retrieved, its wildly thumping and flailing tail gives off a tantalizing rolling action. Working best when rigged with minimal weight, Slop Hopper can be used with various dropshot and jig head presentations. The bait is finished with dual-injected colors, giving it a superb, natural profile.

FEATURES

- Proven body shape
- Horizontal sinking action with a slow flutter
- Dual-injected colors
- Ideal for dropshot & jig head presentations

CASTING

SPIKE TAIL BLEAK

Sometimes you just want to get a reaction. The supple, thin tailed Spike Tail Bleak is a guaranteed show-stopper – whether dropshotted or jigged. With this bait, even the slightest movements result in maximum action. The Spike Tail Bleak's ribbed and textured body provides sense-tingling vibration when retrieved, while the slits on its back and belly ensure the best possible hook exposure.

SUDAK MINNOW

Life-like definition, natural action and immaculate details – this one’s for the perfectionists. The extremely versatile Sudak Minnow comes with a small boot and a tail section so slim that kicking action is guaranteed – no matter the speed of the retrieve. The bait is fitted with subtle body roll and a propeller-like tail that result in a harmonized action. Finished with smelt scent, 3D eyes and double-injected colors, the Sudak Minnow is the ideal candidate for clear water situations.

FEATURES

- Propeller-like Tail Action
- Subtle Body Roll
- 3D Eyes
- Dual-Injected Colors
- Smelt Scent for Added Attraction

CASTING
ARASHI GLIDE

Swims with extremely stable action to easily create different actions with multiple retrieve methods. Slow sinking creates a longer glide while giving angler increased control of swimming depth, keeping lure from rapidly dropping out of the strike zone. Swiveling hooks increase catch ratio by eliminating a fish's leverage against lure body during the fight. Premium colors and patterns with attractor options that are unmatched in drawing a strike by arousing the aggression response. Spare tail included.

CASTING

GOMOKU ULTRA BLADE

Gomoku Ultra Blade is ultra-responsive, even with the slightest rod movement, swimming with stable action with slow to fast retrieves. Body shape offers superior obstacle avoidance performance. An easy to use lure for a variety of species. Double eyelet can be adjusted to match the situation: Regular eyelet for a wide range of retrieve speeds. Back eyelet produces strong vibration. Premium VMC® double hooks.

CASTING & VERTICAL

GOMOKU TRICK METAL

The Gomoku Trick Metal is a highly versatile jigging lure that features a wide tail kicking action. The asymmetric body design gives it a tricky action on the fall which triggers those hungry predators to bite! The Gomoku Trick Metal is rear weighted for long casts and a fast descent. Rigged with VMC® dressed assist hook & rear treble hook.

FEATURES

- Full Metal Body Sinking Multi-Species VMC® Dressed Assist Hook and Rear Treble Hook

VERTICAL/ICE FISHING

GOMOKU KENSAKI

The asymmetrical Gomoku Kensaki cuts water fast with its knife-tip design, allowing it to get deep. The inline eyelets stabilize the jig during descent, and enhance the fluttering action under slack line. Use a 'lift & fall' slow-pitch technique to get the Gomoku Kensaki darting aggressively upwards during the lift, followed by a very tight horizontal flutter on the fall

FEATURES

- Equipped with two VMC assist hooks
- Sinking

TACTICAL SERIES

SUNGLASSES WILDEYE® BISCAY

The WildEye® lenses are built of several layers offering excellent resistance to scratches and different surface treatments. At 1.1mm thick, they offer 99% polarization and 100% protection against UVA / UVB (CAT 3), while reducing dazzle and reflections. TAC or cellulose triacetate is one of the best materials in terms of light transmission and optical stability. That is why it is the most popular material to manufacture polarized lenses.

FEATURES

- 100% UV / UVB CAT 3 protection
- Scratch resistant coating
- Light intensity control layer
- Polarized layer that reduces dazzle
- Contrast enhancement filter
- Lightweight, impact resistant polycarbonate frame
- Basic curves from 2 to 8 for optimal protection.
(Dorado: 2 / Seabass: 6 / Wahoo: 6 / Biscay: 8)
