## *make your own luck*

Fishing is a universal sport, connecting fisherman around the world. It's a universal language. Once a way to feed villages, now a way we unite with our fellow anglers. When it comes to fishing as a sport, we don't look at it as another pastime. Fishing is our passion; it is part of our culture passed down from generation to generation. It connects our families with tall tales, it brings us around the dining room table. You finally have the freedom and time to explore fishing as the incredible sport it is. Venture out with more than just the coolest hooks, gear, bait and technology. Pack some class in your tackle box, and elevate the status of the world's most impressive outdoor sport. It's time to reshape your ideas about fishing.

Participation is a privilege, not a right... represent our sport with honor, on and off the water. Exhibit noble character and conduct yourself as a positive role model.

It's time we re-establish the sport as one where anglers can fully appreciate it. Let's embrace socialization and cooperation between fisherman of all skills levels. It's time to take fishing up a notch... For those who appreciate this sport, offers great potential for expanding our cultural horizons. Let's take it there. Let's put fishing on the map as one of the world's most enjoyable and rewarding pastimes. Let's finally give fishing the center stage as an outdoor sport through the power of our fishing community.

**REELS**

**THE FUTURE IS HERE.  
ITS TIME TO RETHINK EVERYTHING YOU KNOW ABOUT BEARINGS...**

Made from our proprietary space-age polymer material, the CZB is here to replace traditional ball bearings. Unparalleled smooth operation with elite-level performance equal to high-priced specialty ball bearings. Typical ball bearings have extreme performance loss over time due to debris, environmental wear, and corrosion... the CZB does not. It is 100% corrosion-proof and will maintain high-level performance day after day.

The "Next Level" CZB competition bearing takes bearing design to the max. The CZB Comp is precision machined to reduce contact area with the spool shaft. This process creates higher spool spin capabilities by lowering the frictional torque, resulting in measurable performance gains. Install these spool bearings for pro-level performance and extreme longevity.

All CZB and CZB Comp bearings are American designed, American Engineered, and proudly manufactured in the U.S.A.

**CONCEPT Z SLD**

The original Concept Z rocked the industry with its groundbreaking CZB technology. Pushing the edge of design, engineering, and materials forward is what the Z SLD is all about. The NEW Concept Z SLD doesn't disappoint, it starts with the new SLIDE magnetic cast control system located in the perfect place for anglers to adjust without missing a single cast. Control casting downwind and then upwind on alternating casts with a flick of the thumb. Pitch, flip, or just let it fly by combining or isolating the Low-Friction Centrifugal braking with the magnetic SLIDE braking. Zero Corrosion CZB Bearings and an Advanced Polymer drag system are placed within the new rock-solid Cast Iron Carbon frame and side plates. This design sets the new bar for material innovation.

**FEATURES**

**OMEN GOLD**

It's not unusual for greatness to come in small shapes. A descendant of the acclaimed Omen series, Omen Gold is for those who want mobility – without compromising quality. These rods come in lengths and actions suitable for freshwater and saltwater fishing. The shorter rods are ideal for targeting trout with spinners, soft baits and hardbody lures, while the larger range provides actions heavy enough to take on sea trout and other saltwater species. The Omen Gold rods come with a rod tube, ensuring effortless and safe transportation.

**FATE V3**

Fresh from the lab, Fate V3 has broken out of its test tube and is here. Without trying to re-invent the wheel, we added Evolve Soft Touch custom reel seat and Airfoil Carbon grips to manufacture grip and feel at absurd levels. The PVG 36T graphite blank decreases the weight and increases the sensitivity pushing the blank to be that much better'er. This rod is 100% gluten-free in order to be lightweight but we also managed to include tangle free guides with Zirconia inserts. Most importantly, we added the Snaggletooth hook keeper because it turns out that people like to store the baits in between uses.

- Evolve Soft Touch Engage Reel Seat
- Evolve Tangle Free Stainless Steel Guides with Zirconia Inserts
- Evolve Soft Touch Air Foil Carbon Handles
