VIBRAX® UV

It has been suggested by some scientists that UV light is highly visible to fish, which is why we've included UV particles within the paintwork of the Vibrax® UV. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

VIBRAX® HOT PEPPER

Our popular Vibrax® Hot Pepper draws its characteristics from the famed Vibrax® Original, but with the added attraction of high contrasting, "hot pepper" blade finishes designed to trigger a reaction strike. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in raw brass, silver or copper plated, painted & printed finishes
- Fitted with VMC® hook

CASTING

VIBRAX® FOXTAIL

What do you get when you take some of the best performing Vibrax® color patterns, and spice them up with a fluffy tail? The Vibrax® Foxtail of course! The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Available in glow finishes with painted metal blade patterns
- Fitted with VMC® hook featuring teaser tail
