MATERIALS AND FINISHES

BALSA WOOD

Balsa wood has always been the material of choice for Rapala's iconic lures; such as the Original Floater and Countdown – the lures that started it all. Even today, a precisely shaped and precision weighted balsa body gives the lure the most responsive and life-like action, unachievable with any other material. Balsa wood is quite unique; it is a very sustainable product thanks to its rapid growth rate, and despite being so light it is still very strong and is classified as the softest commercial hardwood – the perfect initial ingredient in creating the famous Rapala “wounded minnow” action.

ABACHI WOOD

Abachi wood is the perfect choice for Rapala when a tougher wooden lure is required. Abachi is used in the manufacture of Rapala lures such as the Countdown Magnum – lures that are designed to target big fish. Abachi offers a similar life-like, natural swimming action to balsa. The major difference between abachi and balsa is the strength and also the buoyancy; balsa has higher buoyancy and will rise faster in the water than abachi.

PLASTIC

Plastic is the great artificial material for manufacturing fishing lures, it lends itself to a variety of options for finishes and translucency. Plastic is ideal for lures that have to be very strong and durable or neutrally buoyant (suspending). Plastic lures can be built to be as noisy as a swarm of bees or as silent as a mouse. Translucent plastic can have texture on either side, allowing very realistic life-like finishes with 3D scales, lateral lines, gills and fins when combined with internal metallic or holographic finishes and external paint and print patterns.

ORIGINAL RAPALA FOIL

Rapala's original foil is the perfect all-rounder when it comes to selecting a general purpose finish to mimic natural baitfish. The original foil produces a moderate amount of flash and showcases a fantastically detailed, natural scale pattern.

PAINTED & PRINTED

Painted and printed finishes are generally found on wooden bodied lures, such as the Countdown and Original Floater. These color combinations give off a low amount of flash, and can be produced to provide either natural or high contrast attractor patterns.

HOLOGRAPHIC FOIL

The holographic foil is a signature ingredient within the X-Rap concept; it is what gives that strikeinducing flash that fish just can't resist. Holographic foils are used both internally and externally to achieve intense flash that still blends into the natural underwater environment.

METALLIC PLATING

Metallic finishes are used to imitate really shiny baitfish species and to create a lot of flash to catch the fish's attention. Combined with paint and print patterns, chrome finishes can be used to create highly detailed baitfish imitations as well as bright and flashy attractor patterns.

CUSTOM HD LIVE

Created in perfect detail, the advanced Custom HD finishes are the most life-like replicas of nature ever. The artisanal finishes are a mix of modern printing technology combined with classic Rapala foil finishes and deep knowledge on how to combine the best of both to create stunningly beautiful baitfish imitations.

GILDED FINISH

In nature, numerous baitfish open their mouth wide open when feeding, allowing their gills to reflect light in a shiny, metallic flash. The gilded finish replicates that flash with an added metallic finish on the lure's head – resulting in a polished yet life-like design.

UV BRIGHT

It is widely understood that many fish species see into the UV spectrum, which aids in hunting prey. Some of our lures are coated with UV reflective particles which greatly enhance their visibility to predatory species. UV light is invisible to most humans, so you'll just have to try a UV BRIGHT lure and experience the results first-hand.

GLOW

Glow colors reserve light energy into the coating and release it in the dark – be it because of night or deep water – to create an irresistible target for the predators.

PRECISION XTREME MAVRIK CUSTOM

No corners cut, no expense saved – the new member in the Precision Xtreme series is here. Designed as the ultimate twitchbait, the Precision Xtreme Mavrik 110 Custom is customized to meet the needs of dedicated European anglers. The built-in MaxCast system provides accurate, ultra-long casts. Fish it slow with short twitches to walk the bait and with quick snaps, you can get the bait to turn nearly 180 degrees. When paused, the Mavrik mimics a wounded fish with its head-down suspended posture. Finished with colors specific for European fishing, durable construction, and two razor-sharp VMC 75 series treble hooks.

Semi-Eratic Action • Suspending Minnow • Hard Cutting Action • 3D High Quality Finish

PRECISION XTREME PENCIL

Precise Design – Xtreme Action! Inside the Precision Xtreme Pencil’s durable and through-wired plastic body is an internal weight system that makes the lure one of the best-casting baits in its category. The internal weight doubles as the Dual Frequency Knocker: as the weight slides along the internal railing, it hits a durability-increasing plastic pillar and a stainless-steel weight in turns. This results in a sequence of high and low pitch, attracting fish from near and far! The extremely detailed Precision Xtreme Pencil features printed scales, a new 3D holographic eye, and comes in 12 fish-catching freshwater colors.

SOFT OLIO

If you didn't believe in monsters, now's a good time to start. A relative species to the Peto and Otus, the Soft Olio builds on the well-proven side-to-side rolling action – and adds in the irresistible display of the curly twin tails. Designed for targeting large predators in various situations, the soft bait maintains its action in slow retrieves and can be rigged for optimal presentation. When paused, the split tail flutters enticingly as the lure slowly swims into the depths. Thanks to the soft plastic construction the Soft Olio's textured body provides increased vibrations in the water.

SUPER SHADOW RAP GLIDE

The pike favorite has learned new tricks. The Super Shadow Rap Glide swims in a fish-catching S-pattern, but that's just the start. When you need to adjust the swimming depth, the revolutionary Screw Diver System (SDS) allows you to modify the lure's weight with changeable tungsten weights. Simply screw it on and off! The master of adaptation, this jointed swimbait comes with a spare tail, allowing you to choose between life-like and aggressive colors. On steady retrieves, the Super Shadow Rap Glide gives off a slow S-pattern swimming action – with twitching, the lure swims with short turns. And when the fish is on, the swiveled hooks increase your chance of landing your catch. Extra Screw Diver System weights sold separately.

Life-Like Swimming Action • Swiveling Hooks • Spare Tail Included • Adjustable Swimming Depth with Screw Diver System • 5g SDS on 11cm • 10g SDS on 16cm • Heavy Duty Split Rings • VMC® 8651BN/4551BN Treble Hooks • Sinking

SHADOW RAP® SHAD

Big fish can't resist the tantalizing, slow-rising action of the new Shadow Rap® Shad. Swimming with the infamous horizontal struggle with a vertical "rise" on pause, they perfectly mimic a shad in trouble. Larger profile presents more flash and the option to fish from a finesse to more aggressive retrieve. Tie one on and see what monsters are hiding in the darkness.

Fish it finesse in the morning when the big ones are still a little sleepy, then ramp it up all the way to an aggressive action, matching the mood of the fish. The revolutionary new "frosted" colors absorb light and minimize flash, just right for an enhanced absence of aggressiveness.

SHADOW RAP® FAT JACK

The long-casting Shadow Rap® Fat Jack dives fast when cranked. With a very slow rise on the pause, it perfectly imitates the fade of a dying baitfish. Designed for slow presentations with a steady retrieve and built with a subtle natural rattle created by two internal glass beads, Fat Jack will draw aggressive strikes even from the most passive fish. Detailed Shadow Rap® Series baitfish and attractor patterns help cover all fishing situations while the wire-through construction withstands even the biggest fish.

Slow Rising • Subtle Rattling with Glass Beads • Wire-through Construction • VMC® 7548 Black Nickel Hooks • Targeted for Trout, Perch and Chub • Floating

SUPER SHADOW RAP®

Opportunistic predators can't deny the Super Shadow Rap® as it kicks hard to the side, and then slowly fades away into the depths like a dying fish. Its tall body perfectly mimics the silhouette of a big baitfish while the famous Shadow Rap® action dances the Super Shadow Rap® almost on the spot like an easy meal. Twitch it gently for on-the-spot action; or rip it hard to send it gliding into the mouth of a big fish. Fitted with VMC® Coastal Black™ hooks.

X-RAP®

The X-Rap® is "all about the action." It's the perfect size, shape and 3D illusion of a minnow. Prominent scales and lateral line on the fuselage capture and flash light like a beacon. It can be fished both in an aggressive "Slashbait™" technique or with a classic Rapala wobble. The angler defines the cadence for maximum effectiveness. Small versions of the X-Rap® are ideal for targeting smaller species – or as small, snack-sized offerings for big predators that are finicky and won't bite bigger lures.

Slashbait® Action • Suspending on Pause • Textured Translucent Body • Internal Holographic Foil • Internal Long-Cast System (XR04 excluded) • 3D Holographic Eye • VMC® Black Nickel Round Bend Hooks • Flash Feather Teaser Tail • Hand-Tuned & Tank-Tested

X-RAP® COUNTDOWN®

Fish the Xtreme Attitude consistently at any depth. Based on the Countdown® method introduced by Rapala in the 1960s, the X-Rap® Countdown® brings modern X-Style finishes and details to the game. It swims with a strong rolling action and flutters down on the pause. The X-Rap® Countdown® sinks 30% faster than the classic CD. Due to its weight and body design, it is also very long casting.

X-RAP® HAKU

Built tough for big fish, X-Rap® Haku features Rapala's proprietary 3R System Titanium Release Rig with VMC® Coastal Black hooks. When rigged for action, the hooks are positioned just like on a regular glide bait, and the rig rests in the lure's belly groove, out of the way and protected from weeds and snags. At hook-set, the hook rig will release from the body, letting the fish have no chance to break free. The rig also makes removing the hooks easier the fish as the body of the lure is not in the way. X-Rap® Haku can be used for different presentations and it is super easy to use. Gliding action can be created by either twitching with the rod or by using a stop & go retrieve.

3R System 3R – Rapala® Release Rig – System is built in to lure and out of the way when rigged. Upon hook-set, the clip at the tail will release the rig from the body, allowing a direct contact to the fish and letting the fish have no chance to use the lure as leverage to break free. The durable rig is built with 100 lbs titanium wire and features a solid connector ring, heavy-duty split rings and premium VMC® Coastal Black round bend trebles.

High-impact ABS Body • 3R Release Rig System • Walk-the-dog • Glide Bait Action • Targeted for Freshwater Predators • VMC® 4551 Coastal Black 3/0 Hooks • 100 lb Titanium Wire Rig • Sinking

X-RAP® OTUS

A formidable creature, the X-Rap® Otus, combines Rapala's fish-catching X-Rap® construction with a beautifully color matched curl tail to create a seamless hybrid bait. With its slow sink rate and wide wafting tail, X-Rap® Otus is the ideal choice for cold water & challenging conditions. The body rolls side-to-side as the enormous curl tail pulses behind when retrieved. When paused, the tail acts as a parachute, stabilizing the lure as it slowly swims into the depths. The soft tail is firmly secured to the body with a 6-point stainless plate. Spare tail included.

ABS Body with Soft PVC Tail • 6-Point Stainless Plate Tail Locking System • Wide Tail-Kicking with Body Roll • Large Predator Gamefish • VMC® Coastal Black™ Treble Hooks • Slow Sinking

X-RAP® POP

This X-Rap® brand, lure surface version, “pops” and “splashes” in a remarkable way thanks to its arched back. The concave shape of its mouth creates a string of bubbles imitating the sound of a fish hunt, when animated by dry drawing. Very easy to animate, the slightest movement gives it life. It is as effective in freshwater as in the sea, for example to fish for bass in oyster beds.

Large Concave Mouth • Sounds of splash and Pop • Floating • Long Cast • 3D Holographic Eyes • VMC® Black Nickel Hooks • Shine and feathers in teaser • X-Rap Finish

FLASH-X SKITTER

Built to soar and skitter, the wired-through Flash-X Skitter perfectly mimics one of the most hunted saltwater baitfish in the ocean – the needlefish. The tapered prism design creates impressive flash above and below the water while also acting as a keel to improve stability during a high-speed retrieve, keeping the head up. Crank it fast to send it skittering across the surface like an escaping fish that no predator can resist.

SCATTER RAP HUSKY

Introducing the Rapala Scatter Rap® Husky, the legendary Rapala Husky enhanced with the Scatter Rap® Escaping Minnow action. Its unusual curved lip design sends the Scatter Rap® Husky off on an irregular path, unexpectedly darting from left-to-right as it moves through the water like a nervous baitfish. This scattering movement makes the bulky balsa bodied Scatter Rap® Husky the ideal choice for big predator trolling situations.

Responsive Balsa Body with Scatter Lip • Evasive Escaping Minnow Action • Multi-Species Gamefish • Designed for Trolling Applications • VMC® Black Nickel Round Bend Hooks • Hand-Tuned & Tank Tested • Floating

SCATTER RAP COUNTDOWN

Baitfish skitter and scatter when they are pursued by predators – it's this erratic and evasive action that triggers the strike. Made of balsa, with a custom Scatter Lip, the Scatter Rap® Countdown consistently swims with an erratic and evasive sweeping action – perfectly mimicking vulnerable baitfish. Slightly weighted, this gravity defying body sinks to your desired depth allowing you to retrieve without rising out of the strike zone. Cast or trolled, it is the perfect choice for any species of gamefish.

Balsa Body • Scatter Lip Design for Evasive, Erratic Swimming Action • Classic Countdown Shape and Design • Weighted to Sink for Controlled Depth Fishing • Non-Rattling • True Multi-Species Gamefish Appeal • Premium Black Nickel VMC® Hooks • Sinking

RAP-V BLADE

The Rap-V Blade is the perfect balance of metal, plastic and Rapala® expertise. This extremely versatile bait produces instant vibration on the lift or retrieve. The Rap-V can be worked in variable depths with a wide range of techniques; cast out, make contact with bottom, lift & let fall in a yo-yo style retrieve. For vertical presentation, drop to bottom and twitch for a jiggling action. Two line tie positions; front line tie for a slower fall swimming action, rear line tie for a faster fall, head down action. The Rap-V Blade delivers the right action and attitude and is a perfect choice of any species of gamefish.

RIPPIN' BLADE

A cross-over between a blade bait and the Ripplin' Rap, the Ripplin' Blade delivers versatility and performance in one mean-looking package. Designed to excel at both casting and vertical jigging, the Ripplin' Blade has three attachment points to modify the swimming action to suit the situation. The heavy and slender-profiled lure falls upright and gives off intense vibrations – even at slow speeds. When jigged, the fast-sinking lure gives off a tight side-to-side action. Tie on the Ripplin' Blade when going after big fish, in open water or through the ice.

Instant Tight Vibration on Lift or Retrieve • Three Line Tie Holes • Long Casting • 3D Holographic Eyes • Metal Frame with Durable Plastic Body • Tungsten Belly Weight • VMC® snap • VMC® 5541 BN Treble Hooks • Sinking

X-LIGHT MINNOW

The new standard for modern ultralight baits. The X-Light Minnow features an upgraded weight distribution for casting the miniature lure into the far-off spots. And when the lure hits the water, the showdown begins. The slow-sinking X-Light Minnow swims with a perfectly rolling and kicking swimming action, even in slow retrieves. Thanks to the L-shaped diving lip, the lure retains the action also in heavy currents – making it an excellent choice for fishing streams.

X-LIGHT POP

Light in weight – big in pop. The X-Light Pop is the topwater snack every small predator fish has been looking for. The aerodynamically designed lure casts far into the distance and returns with loud, pronounced pops. The effect is amplified by the lure's internal rattle. The modern life-like finishes and teaser tail make the X-Light Pop a bite that small predators will find hard to resist – especially when the bite is finicky.

NAUVO

A classic restored – the Rapala® Nauvo brings a modern update to a tried-and-trusted traditional metal spoon. Originally appearing in the 1990's, the Nauvo swims with a life-like wide tail wagging action on a steady retrieve while a faster retrieve adds irregular kicks into the action, breaking the rhythm and adding flash. The fluttering and rolling action on the drop adds additional attraction. Modern finishes combine updated traditional spoon colors and realistic HD baitfish patterns. Available in two sizes: the bigger option is perfect for targeting larger predators while the smaller all-rounder is well suited for trout and salmon.

The heavy-weighted body is ideal for casting, pitching, or fishing vertical. The durable one-piece fin and body construction gives off the fish-catching Jigging Rap® action. The Jigging Rap® Magnum has a large tail hook and a treble hook with a swivel to keep fish hooked.

KARBON KAYAK NET
