

AT STORM, WE'RE SERIOUS ABOUT FISHING

Non-fishermen might even see us as obsessive. We believe in getting into the head of a fish to really understand what's going on... like what makes a fish bite. We build our lures based on those findings because we know that you're serious about fishing too. So get out there and do what you need to do to find them & catch them.

CASTING

BISCAY SANDEEL

Built to imitate a prominent saltwater prey, Biscay Sandeel features a long, slender body and a perfectly matched head with a fixed hook. An additional chin eyelet gives the option of adding an assist hook or blade. This weighted head & body combination allows you to cast further in windy coastal conditions, and fish faster in rough water or when an aggressive presentation is needed. The subtle paddle tail kicks with a life-like action and incredible vibration, even at slow speeds. Both body sizes are available in two options; lighter head for cast and retrieve techniques and a heavier head option designed for vertical jigging even in strong currents. Every Biscay Sandeel is extremely visually detailed with each body perfectly color matched to its own jig head. Rigged with a heavy duty VMC® hook. Head includes eyelet to add optional stinger hook.

CASTING

BISCAY MINNOW 9 & 12

Not for the faint of heart, the Biscay Minnow casts long and fishes fast. With its aerodynamic design, this bait was born to face the rough winds and waters of the coast. The Biscay Minnow's subtle paddle tail kicks with a lively action and incredible vibration – even in slow presentations. And when in need of an extra edge, a hook or blade can be attached to the eyelet on the jig head.

CASTING

BISCAY SHAD 9 & 12

Life-like from the moment it hits the water, the Biscay Shad is a showcase of imitation. With its articulated body and head, the bait swims with a realistic action – all the while keeping the VMC hook neatly hidden in the bait’s weedless system. When attacked, the Biscay Shad’s body collapses, exposing the large hook gap for a clean hook up. The bait’s weighted head-and-body combination allows for long casts and aggressive presentations, making the Biscay Shad the perfect for windy coasts and rough waters.

BOOM SHAD

As you might guess, this bait packs a lot of boom. The Boom Shad's pronounced body, slender wrist and wide paddle tail produce a rolling action with a lot of belly flash, even at low speeds. Combine this with a presentation that imitates a wounded fish on the run, and the results are irresistible. The bait's larger sizes (7" and 9") are ideal for pike angling, whereas the smaller sizes (3" and 4") are great for targeting perch and European zander. The Boom Shad is finished with a realistic design, making it the predator anglers' dream.

FEATURES

- Big Paddle Tail Action
- Dual Injected Colors
- Designed for European Predator Species
- Smelt Scent For Added Attraction

FEATURES

- Supple minnow shape
- Responsive tail flicking action with any movement
- Back & belly slit ensures body folds away when a fish strikes to maximise hook set
- Ribbed, textured body for added vibration
- Ideal for vertical jigging or high speed cast & retrieve

The WildEye® lenses are built of several layers offering excellent resistance to scratches and different surface treatments. At 1.1mm thick, they offer 99% polarization and 100% protection against UVA / UVB (CAT 3), while reducing dazzle and reflections. TAC or cellulose triacetate is one of the best materials in terms of light transmission and optical stability. That is why it is the most popular material to manufacture polarized lenses.

FEATURES

- 100% UV / UVB CAT 3 protection
- Scratch resistant coating
- Light intensity control layer
- Polarized layer that reduces dazzle
- Contrast enhancement filter
- Lightweight, impact resistant polycarbonate frame
- Basic curves from 2 to 8 for optimal protection. (Dorado: 2 / Seabass: 6 / Wahoo: 6 / Biscay: 8)
