

DYNAMITE

Made by anglers for anglers

The name Dynamite is instantly recognisable across Europe and beyond for producing high quality, market leading baits for Carp, Feeder or Competition fishing, in fact the angler's success with our products is at the heart of everything we do - it's that simple!

Our fundamental concept - 'bait made by anglers for anglers', has served us well for many years and stands true today, even though our output and market share has grown considerably since our arrival on the bait scene in the mid 90's. Our rich heritage of extremely well proven bait ranges such as The Source™ and Swim Stim, are still market leading, but we continue to keep moving forward and remain at the cutting edge of bait development, which has always been part of the Dynamite brand essence.

Whether it be boilies, pellets, groundbaits, hookbaits or liquid additives, you can be sure that Dynamite have something that will help catch more fish!

HELLO AND WELCOME TO A NEW SEASON

Welcome to the 2025 Dynamite European range, you will find all the firm favourites that have proven themselves consistently over the last few years, alongside several new products that are certain to be big sellers.

NEW PRODUCTS FOR 2025

We have some great new introductions for the Carp angler. The Carptec boilie range has been expanded with the addition of 300g bags, surefire winners for convenience and anglers on a budget.

Our high attract hookbaits have been updated with the new N-Tigers, offering a range of highly effective flavour and colour options.

More anglers are using solid PVA bags, so the addition the Big Fish Solid Bag Mix 2L is great timing. A blend of several pellets with different sizes, colour and breakdown times in a convenient bucket.

Premium Liver Liquid Carp Food is a great addition to the range, providing a cloud of meaty attraction to any bait.

We've also adjusted our pop-up tub sizes across all flavours, offering improved convenience at a very competitive price.

The Catfish range has the new Chicken Liver flavour as well as range extensions, plus a packaging refresh, increasing the appeal to the consumer.

For the river enthusiasts we have added the Big Fish River Barbel Pellets, premium quality dedicated pellets for Barbel, with a pungent blend of attractors.

With the increased growth of feeder fishing across Europe, there are several new products for this market.

Big Fish Feeder Ready Pellets in Sweet Banoffi and Krill flavours. These 2mm pellets are feeder ready with no preparation required, simply mould to your feeder. Shot Colour & Flavour Enhancers are a liquid ideal for colouring and flavouring baits such as pellets and meat. For a powder option we have Shake'N'Catch Colour & Flavour Enhancers, ideal for pellets, meat maggots etc. Last, but certainly not least, Wowsers Hi-Bridz, two-tone versions of this very popular hookbait.

An abundance of exciting new products for this year, alongside our very popular established range.

Thanks to all our customers for the continued support in 2025.
