BEDS & CHAIRS

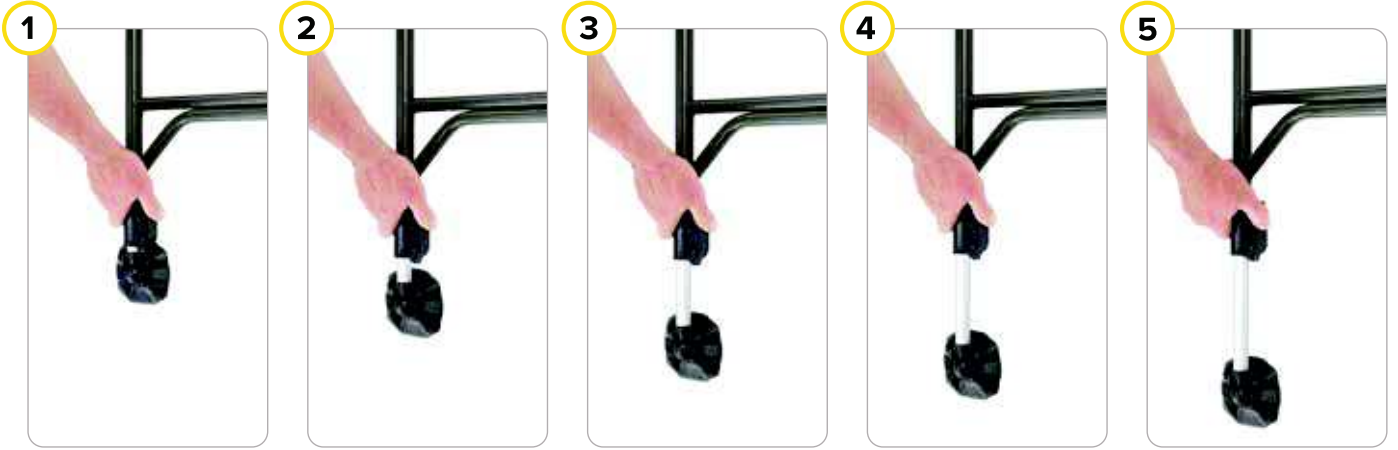

CARPSPIRIT | BEDS & CHAIRS

SPRING LOCK SYSTEM

The Spring Lock System allows a simple and quick adjustment of the leg lengths to the respective conditions of the bottom structure with just one hand. Through a spring mechanism, the leg length jumps to the desired height. By letting go of the adjustment, the leg is locked in the desired place. This is very easy and comfortable, especially in hard-to-reach places, such as the inner back of the tent wall.

SLEEPING BAGS & ACCESSORIES

SLEEPING BAGS

Being comfortable on the bank is a must – the more comfortable you are, the better you’ll fish... and this will ultimately contribute to your success rate. Here at Carp Spirit we take bankside comfort very seriously, so when we developed a complete new range of Magnum and BLAX sleeping bags and covers, there was a huge focus on research, development and testing to ensure that the finished range of products are the very best available on the market, yet still offer excellent value for money. Rather than just develop a new range of sleeping bags in isolation, we actually designed them as a parallel development alongside the all new Magnum and BLAX beds. The end result is a superb synergy between both our sleeping bags and beds that uses a simple two sizing system;

So whether you’re fishing summer nights under a brolly, or a winter session in sub-zero temperatures, you can be sure that there’s a Carp Spirit sleeping bag with the performance to meet your requirements, keeping you comfortable and warm during your session.

SIZE STANDARD

- A true all-season bag that provides outstanding performance thanks to its 4 season silicone treated Hollow Fibre filling.
- The unique 50/50 lining uses Micro fleece around the head and body area, which is instantly warm to the touch, whilst the lower part of the bag is made using smooth rip stop material to reduce the chances of the bag pulling and catching on your legs.
- **Filling:** 4 season Hollow Fibre filling with silicone treatment for increased volume & longevity.
- **Outer:** Waterproof Rip-Stop Polyester outer fabric.
- **Inner:** Unique 50/50 lining – Micro fleece upper / Smooth Rip-Stop polyester lower.

SIZE XL

MIN TEMP -10°C ❄️

Perfect with our range of beds: Pages 747-748.

THE DETAIL

- 1 Oval cut out – Allows you to be fully zipped in for maximum warmth.

MINI DOLMEN

ALL SEASON
SUPPLIED WITH
HALF WINTERSKIN

- Featured packed bivvy, perfect for long sessions on the bank.
- Constructed using ARMA-SKIN™ fabric (10,000mm² Hydrostatic Head), on a unique Aluminium frame design, the Mini Dolmen offers a spacious bivvy that is incredibly strong and stable.
- 180cm height makes it possible for most to fully stand inside.
- The front and back panels can be fully rolled back, and feature side mosquito meshes and multi-configuration doors that can be used in closed, mosquito, or clear PVC window.
- Double door entry – door at each end of the bivvy for easy access.
- Mesh roof design for maximum ventilation.
- Heavy duty groundsheet, heavy duty moulded ‘T’ pegs, and oversized carry bag included.
- Supplied with a half Winter Skin as standard, a full Winter Skin is also available separately for added comfort in the most extreme conditions.

EVEREST 1 MAN

SUPER STRONG
AND LIGHTWEIGHT
FRAME

Winterskin

- The Everest 1 man bivvy is both quick and easy to erect.
- Constructed using ARMA-SKIN™ fabric (10,000mm² Hydrostatic Head), on a 4 rib Aluminium frame, it is incredibly strong and stable.
- The extended front rib provides additional protection and cover over the door area from the elements, particular useful for when using the front door 'letterbox' style.
- The fully removable front panel features side mosquito meshes and a multi-configuration door that can be used in closed, mosquito, or clear PVC window.

- Rear mosquito vents have also been added for increased ventilation and velcro rod support straps have been added to the frame as standard.
- Heavy duty groundsheet, heavy duty moulded 'T' pegs, and oversized carry bag included.
- A full Winter Skin* is also available separately for added comfort in the most extreme conditions.

NET PRICE

* Will accept two Beds with front panel removed and Winter skin fitted. Mini porch groundsheet supplied to be used for this configuration.

MAGNUM 100 BIVVY

Camo Zip in Mozzi Mesh.

- The feature packed Magnum 100 bivvy is constructed using a 2-piece 360-degree centre block that enables rapid setup and pack down.
- The lightweight aluminium frame with individual leg tension bungees, and moulded elbow joints, ensures reliability and confidence even in the harshest of conditions.
- Wrapped in our high-performance HYDRO-SKIN material (20,000mm² Hydrostatic Head) that features black out technology, the bivvy is the perfect option for harsh winters and light summer mornings.
- The flat back design allows beds to be placed towards the back creating more useable floor space and increased headroom.
- Additional features include; height adjustable splay frame design, 2x Rear Mosquito vents, thermally taped seams throughout, Velcro rod straps, zip off front infill panel (infill panel sides can also be rolled and clipped back), solid centre door with mosquito mesh – can be fished 'letter box' style, internal mesh storage pockets.
- Heavy duty groundsheet, heavy duty storm poles, heavy duty Moulded 'T' pegs and oversized carry bag included.
- Camo Mosquito Mesh full zip front Panel available separately.

RAZORLITE BIVVY

LIGHT & FAST BUILD

- A lightweight bivy that can be configured to suit a host of different situations. Fish without the front as a day shelter for short sessions or when on the move, add the front to become a bivvy, or add the winterskin for extreme weather conditions.
- Constructed using tough and durable 200D Nylon PU Fabric (8000mm² Hydrostatic Head), and 7001 Aerospace grade flexible Aluminium poles, the Razorlite is the ultimate lightweight bivvy.
- Zip in front panel and be fully removed or rolled and clipped back.

- Solid center door with mosquito mesh – can be fished 'letter box' style.
- Thermally taped seams throughout.
- Velcro rod straps.
- Medium weight PVC groundsheet, heavy duty molded 'T' pegs, and oversized carry bag included.
- A full Winter Skin is also available separately for added comfort in the most extreme conditions.

ALARM

HD5

- Since its launch, the HD5 has become a firm favourite with carp anglers. Incorporating some of the latest technology available in electronic bite indication, the HD5 really does tick all the boxes. Reliability, long battery life and a quality build, nothing has been overlooked.
- Feature packed with dial adjustable sensitivity, 6 colour LED (Red, Green, Blue, Yellow, Purple & White), 20 second latching, 20 second afterglow period on alarm and receiver, 150m range, remote range self-testing, connection ring on receiver to secure it, low battery warning, nightlight mode, power out socket for illuminated bobbins, and a quality ABS body.
- A digital rolling code system also allows extra alarms to be purchased separately and programmed to an existing receiver.

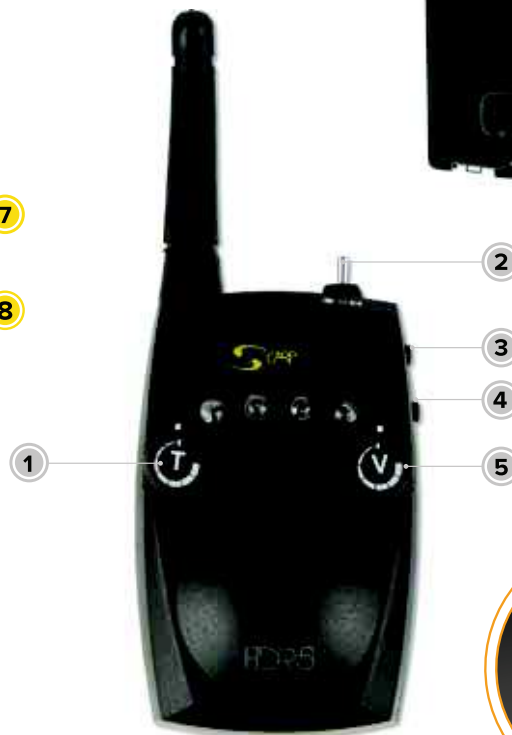

HD5 x4 HD5R x1

HD5 x3 HD5R x1

HD5 x2 HD5R x1

THE DETAIL

- 1 Ultra-bright long life LED.
- 2 Tone control.
- 3 LED colour control.
- 4 Power out socket.
- 5 Stainless steel screw thread.
- 6 Soft rubber non-slip insert.
- 7 Volume control.
- 8 Sensitivity control.
- 9 On/off power / vibration switch.

HD5 Protective covers included.

THE DETAIL

- 1 Tone control.
- 2 On/off power / vibration switch.
- 3 LED Colour button.
- 4 LED Selection button.
- 5 Volume control.

HD5R with table support and belt clip included.

Both the bite alarm and the receiver operate on a 9V battery (not supplied).

INOX BOBBINS

NEW 2025

The Carp Spirt INOX Bobbin system sets a new standard in visual bite indication. Not only do they look the part, each INOX Bobbin is packed with unique and clever features to offer enhanced bite indication, ease of use and versatility.

A key part to the INOX Bobbins versatility is the Duo Adjustable Clip (D.A.C.). The DAC allows the mainline to be fished either free running by simply passing the line between the magnetic balls or can be fished fixed by locating it into the lower second clip. Another clever feature is the addition of a side grub screw, which is used to directly adjust the tension between the magnetic balls, particularly useful when fishing braid or low diameter mainlines.

Set up is quick and simple thanks to the integrated Neo magnet and a keyed location slot in the hockey stick adaptor to ensure perfect alignment every time.

2x Screw in weights (5g & 10g) are included as standard, allowing the head to be fished at 0g, 5g, 10g & 15g configurations, covering everything from slack lining in the margins to tight lines at extreme range.

A dual axis pivot directly underneath the head further enhances the sensitivity of the swing arm; perfect for fishing slack lines and particularly useful for enhancing drop back indication.

6x LRA Heads (Light Reactive Acrylic) are included with each Bobbin in colours: Red, Green, Blue, Yellow, Purple & Clear, each featuring a hollow core to accept an isotope.

Hanger conversion kits available separately.

INOX Bobbins – Designed and developed in the UK.

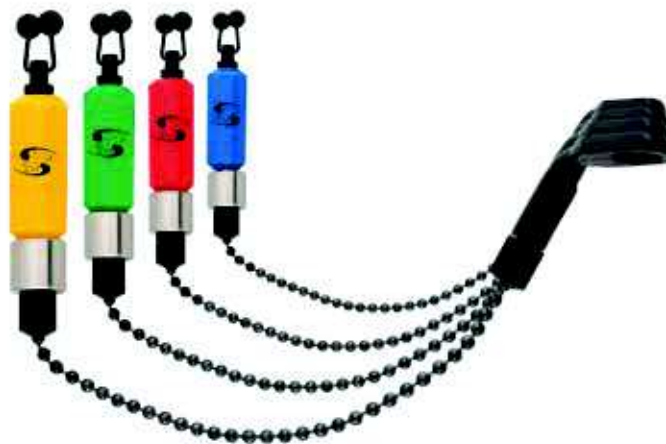

- Duo Adjustable Clip (D.A.C.) – For Running line or fixed attachment
- Side grub screw – For increased tension when using Braid or low diameter lines.
- Integrated Neo Magnet – Rapid set up.
- Key location Hockey stick slot – Perfect alignment every time.
- 5g & 10g screw on weights included.
- Dual Axis head – Enhanced bite indication.
- Hollow head – Isotope can be added.
- 6x Colours – Red, Green, Blue, Yellow, Purple & Clear.

BANK STICKS

 DESIGNED AND DEVELOPED IN THE UK

- The Carp Spirit INOX 300 stainless steel range is the result of over 2 year's extensive design, development and testing.
- Designed completely from the ground up using CAD (Computer Aided Design) the extensive range covers a multitude of rod support set ups and is machined entirely from ultra-high grade 300 Series Stainless Steel.
- Made to last and provide years of trouble free service, innovative designs and features such as the quick release (QR) 'Pill' system have been introduced, along with some totally unique products such as the 2 in 1 deck stand and 'safe storage' bankstick stabilisers.
- Quality, Innovation and Design – The Carp Spirit INOX 300 Series.

BORA POINT BANKSTICKS

- Machined from ultrahigh grade 300 Series Stainless Steel and will provide years of trouble free use.
- Feature a quick release 'Pill' system which allows alarms to be quickly removed or butt rests to be changed in seconds.
- The 'Bora Point' design is perfect for drilling the banksticks into hard ground.
- No Loss Tri-lobe thumb screw design.
- Hollow tube inserts for reduced weight.
- Pointed inserts double up as stalking sticks.
- 3/8" BSF Thread.
- Compatible with the 2 in 1 key (sold separately).

ROD RESTS

LOCKING BUTT GRIP

- Clamp down design – securely locks rods into place.
- Automatically releases when rod is lifted.
- Anti-slip moulded inserts.
- Will accept rods up to 22mm (standard) and 16mm (small) diameter.
- 3/8 BSF stainless steel thread.
- Black alignment collar and rubber washer included.

STAINLESS STEEL ADJUSTABLE HEAD

- Easily adjustable support thanks to the two systems of lateral and lower screws.
- It will perfectly support your rod, either in 10, 12 or 13 feet, thanks to a precise adjustment of the spacing of the supporting lamellae.
- The lamellae are even topped with a “soft touch” grip in order to avoid any slipping of the rod and to protect the butt section.
- The whole support is made with corrosion resistant materials for a longer durability.

NANO MATRIX CARBON

Our multi walled Nano-Matrix Carbon blanks are so strong because they are made up of a single chain of unbroken covalent carbon to carbon bonds within the low resin pre-preg; the end result is slimmer, lighter and higher performance rod blanks.

This process is reserved exclusively for our top of the range Magnum rods XLR, X5 and X3 series.

ANTI-SCRATCH FINISH

All blanks that feature ASF are precision laser ground to ultra-high tolerances.

This removes the traditional requirement to apply paint or varnish to the blank, and is therefore the final process before any components are fitted.

The end result is a smooth, long lasting and durable surface finish, which will ensure that your rods will still look as good as the day that you bought them, even after many years of use.

STAINLESS STEEL BUTT CAP

Manufactured from 300 series grade stainless steel with a laser etched Logo. The hard nature of stainless steel is more durable and resistant to damage.

ANTI-FRAP TIP GUIDES

Anti-Frap tip guides feature smooth and blended side bracings between the tube and centre frame. This special shape greatly reduces the chances of line getting wrapped around the tip of the blank before, during or after the cast.

FUJI BKWAG GUIDES

Highest quality, tangle free, Japanese rod guides with lightweight Alconite centres. The special smooth shape of the frame makes them perfect for extreme distance casting and when heavy duty shock leaders are required.

SEA-GUIDE GUIDES

TUXTLG – Highest quality, lightweight, double leg guides with a Titanium finished frame. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

BTLTSG – High quality, lightweight, double leg guides with a black anodised finish. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

BTLSG – High quality, lightweight, double leg guides with a black anodised finish. Featuring Silicon Carbide centres and externally rolled frames to help prevent guide centre damage.

CARBON CLONE REEL SEAT

Machined entirely from a carbon tube and featuring a 1K weave, this reel seat is ultra light weight and perfectly matches the rod weave and cosmetics. It will accept both big pit and standard size reels.

FUJI DPS REEL SEAT

High quality Japanese moulded reel seat that is both secure and comfortable. Will accept both big pit and standard size reels.

ALPS REEL SEAT

Highest quality, light weight and incredibly strong. The ALPS reel seat is machined entirely from aerospace grade Aluminium and anodised in black.

The dual collars and nylon lock washer provide an incredibly strong and secure fixing for even the largest of big pit reels. Perfect for withstanding the torque and turning forces generated during extreme distance casting.

1-K WEAVE

The tightest weave we use on our rods. The multi-directional carbon fibres are interwoven at a rate of 1mm x 1mm, providing thousands of overlays across the blank length.

The end result is added strength to the blank itself and increased tip speed recovery to aid both casting distance and accuracy.

3-K WEAVE

Multi-directional carbon fibres are interwoven at a rate of 3mm x 3mm, providing thousands of overlays across the blank length.

The end result is added strength to the blank itself, and increased tip speed recovery to aid both distance casting and accuracy.

MAGNUM[®] XLR

MAGNUM XLR

- A rod like no other! XLR means Xtra-Long Range, and that is exactly the sole purpose of this rod. To deliver baits and PVA bags to the horizon.
- Made from Hi-Modulus Nano Matrix 46-ton carbon and wrapped in a 1K weave along its full length.
- Key to achieving these kinds of distances is the specially tapered butt section. So fast is the taper that the XLR will easily cope with leads up to 6oz in weight.
- Of course, pushing rods like this to the limit demands the highest performance fittings. That's why we chose a CNC machined Alps reel seat for maximum reel security, and Fuji BKWAG to cope with the fast line speed and heavy duty shock leaders required for such a specialist tool.

NANO MATRIX CARBON

Stronger, lighter, Higher Performance Blanks.

ANTI-SCRATCH FINISH

Ensures your rods look great after years of use.

ANTI-FRAP TIP GUIDE

Reduces line wrapping around the tip.

FUJI ALCONITE BKWAG GUIDES

Highest quality Fuji DPS gunsmoke reel seat.

STAINLESS STEEL BUTT CAP

Featuring laser etched logo.

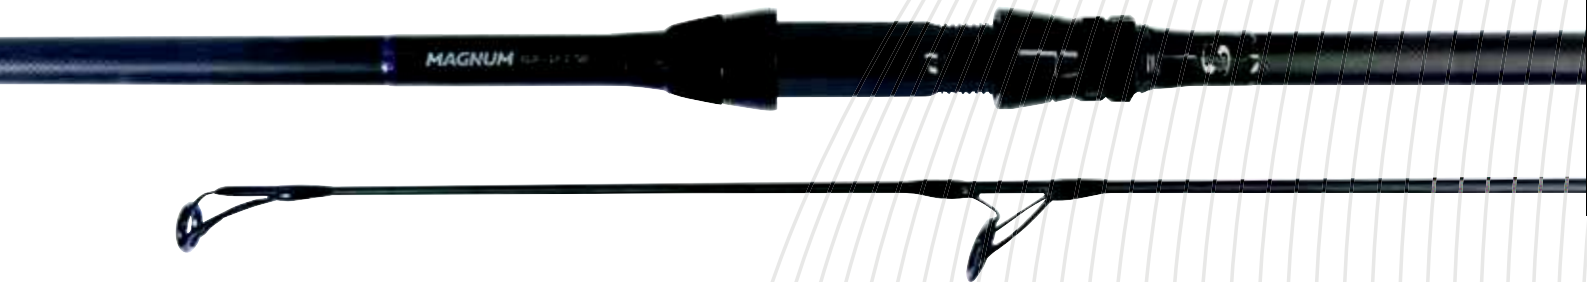

ALPS REEL SEAT

Highest quality, lightweight and incredibly strong.

1-K WEAVE

MAGNUM[®] X5

MAGNUM X5

- Our top of the range Magnum X5 rods are all manufactured from 40-Ton High Modulus Nano Matrix Carbon (NMC), which gives the blanks their ultra slim diameter yet still provides plenty of power in reserve.
- All the Magnum Series rods feature the same semi fast action, which, after extensive testing by the Pro team was found to be the perfect balance between being able to cast leads to extreme distances yet still retain a tip soft enough to absorb the lunges of the fish during key stages of the fight.
- Built using only the highest quality fittings including a carbon clone reel seat and an ASF technology blank, the Magnum X5 series are without doubt the ultimate carp fishing rods available today.

OUR MOST
VERSATILE
ROD

MAGNUM[®] X3

MAGNUM X3

- Manufactured from 36-Ton Hi-Modulus Nano Matrix Carbon (NMC) the Magnum X3 range is a series of rods with a semi fast action that offer fantastic performance.
- The butt section holds plenty of power in reserve for casting heavy leads and PVA bags, yet the tip section is still forgiving enough to absorb the lunges during a fight.
- The high-quality Fuji reel seat is compatible with both big pit and standard size reels, and the ASF technology blanks finished in a 3K weave ensure that the Magnum X3 Series will be a firm favourite.
- Available in a range of lengths and text curves.

MAGNUM X2

- An extensive series of rods with fantastic performance and value.
- The blank made by using a special 30-Ton hi-modulus carbon offering a slim blank, fast action and lightweight.
- Cosmetics are both minimalistic and subtle with matte finished blanks, gunsmoke reel seats and guide frames, and with a small section of 3K weave above the reel seat.
- High quality SEA GUIDE TDG guides are used throughout, which are lighter, provide increased transmission and are not damaged from braid use when compared with ceramic guides.

BLAX™

BLAX EVO NEW 2025

- A series of rods that have been designed and developed to be 'best in class'.
- At first glance you would be forgiven for thinking that the BLAX rods are twice their actual price and rightly so.
- Slim, lightweight, dark matte blanks have been constructed using the finest 24-Ton carbon pre-preg.
- Built using high quality Slim Guides and lightweight anodised Aluminium fittings.
- Amongst the standard test curves, you will find some fantastic utility rods such as the 10ft rod, ideal for stalking or for use in tight swims.

ACS180030	180-250 x 70 x 70		1	49.99

BLAX BOAT & WEED NET NEW 2025

This spoon-shaped carp landing net was not only developed for special use in weedy waters, but also for safely landing fish in reeds or water lilies. Conventional carp landing nets reach their limits in such conditions due to their design. The shape of the rigid frame allows you to push the weeds or plants aside, pierce the weeds or reeds to land the fish quickly and safely.

- The landing net for weed, reeds and water lilies.
- Spoon-shaped design.
- Rigid aluminum frame.
- Super soft, fish friendly, tight mesh green net.
- Excellent value for money.
- Dimensions: 82cm x 66cm x 100cm (net depth).

BLACK BOAT

When the Black Boat series was first introduced, Carp Spirit became one of the very first brands to produce inflatable boats specifically developed for carp fishing. Now established as a market leader and a benchmark throughout Europe, the latest range of Black Boats have now been improved even further to meet the demands and expectations of the modern-day carp angler.

Packed with new and additional features such as improved inflatable floors, new handles, and increased width to provide even more space and greater stability; all this alongside superb durability to provide years of service. Black Boats... **'The Benchmark'** in carp fishing boats.

- 3+1 Inflatable chamber system.
- Heavy duty 0.9mm canvas with re-enforced side and base for extra protection.
- Inflatable floor (240WI, 270WI & 300WI) with front anti-return valve location. Aluminium floor (320W).
- Built-in floor strengthening ribs for super rigidity.
- Battery protection with strap located at the back.
- Inflatable and reinforced keel cuts through the waves and keeps the nose on course.
- One-way multi point inflation valves.
- Safety overpressure valve.

*270WI / 300WI / 320WI

THE DETAIL

- ① Cleat at the front to stabilise the boat, even with one hand.
- ② Stainless steel ring at the front.
- ③ Inflatable floor (240WI, 270WI & 300WI).
- ④ Black Aluminium floor for stability (320W model only).
- ⑤ Removable and adjustable seats.
- ⑥ Battery protection with strap.
- ⑦ Extra strong grab handle on the rear.*
- ⑧ Extra strong transom with motor support plate.
- ⑨ Removable black oars with secure fixing screws.
- ⑩ Side multi-use handles.
- ⑪ Internal stainless ring with fixing cord included.
- ⑫ Side rope.
- ⑬ Floor inflation valve with anti-return.
- ⑭ Inflatable and reinforced keel.

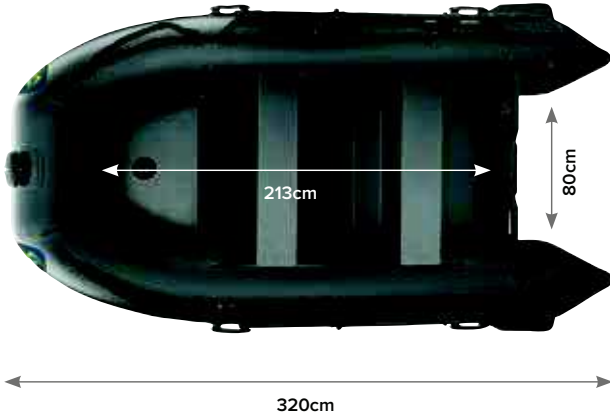

Heavy duty 0.9mm canvas with re-enforced side and base for extra protection.

Storage bag, large volume foot pump and repair kit included.

BLACK BOAT 320W

An extreme boat for the most extreme conditions, the 320W is built for the most demanding of situations. With its additional pair of moulded front handles, an Aluminium floor, 2 seats and with an engine rating power of up to 15HP, this boat is the perfect tool for any big lake, huge rivers, or even giant catfish fishing. Perfect to move all your equipment from one side of the lake to the other at a moment's notice, whatever the weather; it is even big enough to sleep in.

DETAIL

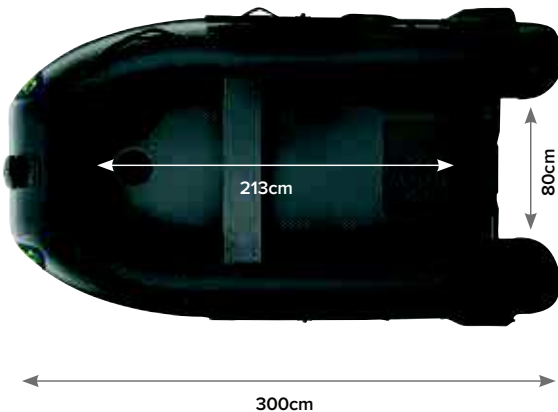

- Side tubes diameter – 42cm
- Side tubes maximum pressure 5PSI / 0.34BAR

HOOKS & READY RIGS

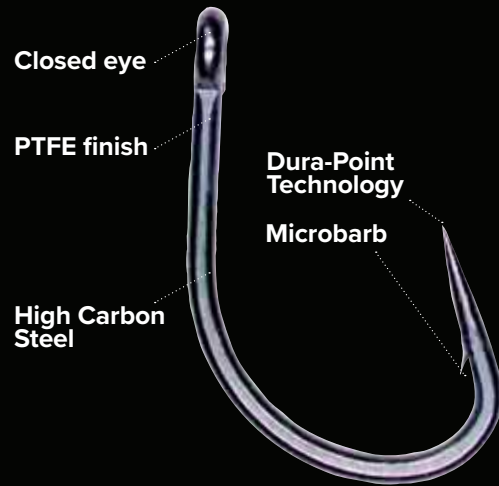

RAZOR point

Since their Launch, Razor point hooks have become a firm favourite with Carp Anglers from around the World. With thousands of Carp hooked and safely landed on them, it's easy to see why so many anglers trust and finish their rigs off with our Razor point hooks. Designed from scratch, and tested to the extreme in both in the laboratory and in real world fishing situations by our Global team, you can be confident that whichever Razor Point hook you choose it won't let you down. Attention to detail is everything; each Razor point hook is made to ultra-fine tolerances, carefully tempered using a computer controlled process and chemically sharpened using Durapoint technology. The comprehensive range ensures that whatever angling situation you're faced with, there's a perfect hook pattern for it. We believe our range of Razor point carp hooks are the most technically advanced on the market today – Something we are extremely proud of.

Now with 80% less plastic packaging.

- **Dura-Point Technology** – The sharpest, longest, most durable hooks points in the carp hook World – Even after multiple uses.
- **High Carbon Steel** – Raw material choice is critical, and we only use the best quality high carbon steel available to produce our Razor point carp hooks, providing the very best strength, durability and reliability.
- **PTFE Finish** – The smooth PTFE finish not only reduces glare to avoid spooking wary carp, but also reduces friction, therefore aiding penetration speed by up to 50%.
- **Closed Eye** – Each hook eye is precisely formed to ensure it's truly 'closed' to ensure that zero damage occurs to your hook link, particularly when using the 'knotless knot' and perfect for low diameter hook links or braid.
- **Micro Barb** – Ultra small Micro barbs are designed to offer an extraordinary hook hold during the fight yet minimise mouth damage during unhooking.

"Sharpest hooks, straight from the packet."

Ian Russell

HOOKS

RAZOR ROUND-CURVE NEW 2025

● The most recent addition to the Razor Point range of hooks is the Round-Curve. Perfect for all kinds of rigs from Waffer rigs to the more modern favourite Ronnie Rig. When you are playing a fish, this shape hook hold just gets better under pressure. Several very large Carp have already fallen for the Round-Curve whilst being field-tested.

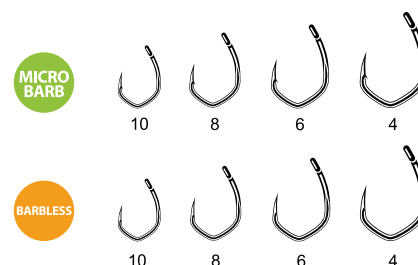

- Super strong & incredibly sharp.
- PTFE coating.
- Available in both barbed and barbless in sizes 2, 4 and 6.

CODE	HOOK SIZE	HOOK TYPE	QUANTITY	GENCOD	TRADE PACK	RRP (€)

ACS350090	6	Micro Barbed	10		5	5.69

RAZOR LONG SHANK

- Versatile, strong, and reliable, the LS pattern has been designed to cope with a wide variety of carp fishing situations.
- The in-turned eye, straight point and forged shank makes the LS pattern perfectly suited for both hair-rigged bottom baits and pop-up boilies. It is the perfect choice for sliding ring anti-eject rigs.

CODE	HOOK SIZE	HOOK TYPE	QUANTITY	GENCOD	TRADE PACK	RRP (€)

ACS350030	4	Barbed	10		5	5.69
ACS350032	6	Barbed	10		5	5.69

RAZOR BOILIE BEAK POINT

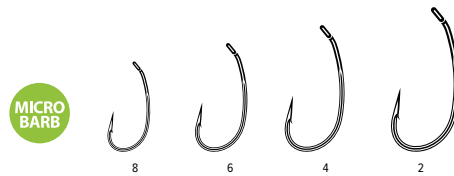

- With its in-turned beaked point, the BBP is an excellent hook choice when fishing over gravel or rocky bottoms as there is less chance of the hook point becoming damaged.
- The short shank and straight eye has a slight in-turn, making it ideal for a huge array of presentations including snowman rigs, bottom baits or pop-up boilies.

ACS350046	10	Barbed	10		5	5.69

RAZOR MEDIUM CURVE SHANK

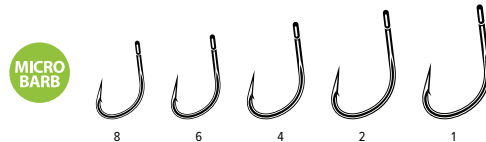

- The MCS has been created by combining the benefits of a long shank with the aggressive hooking of a curved style pattern. The slightly downturned eye ensures the hook turns instantly, ready for maximum penetration.
- Suitable for a wide degree of presentations, including the popular '360' and 'Ronnie' style rigs.

ACS340089	—	20	8	8	2		5	8.39

RAZOR BLOW BACK RIG

- The long shank pattern is perfect for the micro ring to slide along when the fish tries to eject the bait leaving the hook point clear and increasing the chances of finding a hold.
- A Carp Spirit Kicker line aligner is also added to the rig to aid rapid turning of the hook point.
- This versatile rig is perfect for use with both bottom baits and pop-ups.

MICRO BARB

THE DETAIL

- 1 Razor Point Long Shank Hook.
- 2 Kicker Line Aligner.
- 3 Camo Core Hooklink.
- 4 Size 8 Quick-change Swivel.
- 5 Mini Anti-tangle Sleeve.

RAZOR FLUOROCARBON 'D' RIG

- With Fluorocarbon having similar light refractive properties to water and no tubing present, the rig almost disappears when immersed in water.
- The Fluorocarbon 'D' rig is perfect for bottom baits, slow sinkers or snowman style setups.

THE DETAIL

- ① Razor Point Short Curve Shank Hook.
- ② Fluorocarbon.
- ③ Size 8 Quick-change Swivel.
- ④ Mini Anti-tangle Sleeve.

RAZOR PVA BAG HAIR RIG

- PVA Bag Rigs are short, braided rigs specifically designed for use with PVA Bags.
- Can easily be dropped directly into solid PVA bags or can be used in conjunction with PVA Mesh systems.

THE DETAIL

- ① Razor Point Boilie Beak Point Hook.
- ② Re-Action Braid.
- ③ Size 8 Quick-change Swivel.
- ④ Mini Anti-tangle Sleeve.

RAZOR KD RIG

- Best fished with slow sinking critically balanced baits or a pop-up with a small split shot directly under the bait to act as a counterbalance.
- The hook retains an incredible amount of free movement making this a very effective rig that is renowned for good hook holds.

THE DETAIL

- ① Razor Point Short Curve Shank Hook.
- ② Camo Core Braid.
- ③ Size 8 Quick-change Swivel.
- ④ Mini Anti-tangle Sleeve.

REACTION™ RIG

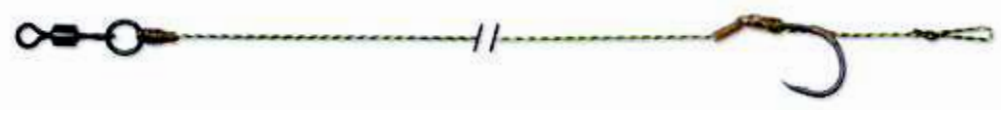

- A simple but highly effective rig tied using our fast-sinking Re-Action Braid.
- The soft and supple make up of Re-Action Braid make this the perfect choice rig for when using PVA bags.
- It can be fished with either bottom baits, pop-ups or snowman presentations by simply adding Tungsten Putty or a split shot onto the braid to counterbalance the bait.

BRAIDED MAINLINE

4D – CAMO BRAID

- Made from Dyneema® / polyester blend resulting in a tremendous balance of value and performance.
- The 4 camouflage colours along its length help break up the shape to blend into the lakebed.
- Fast sinking, durable and highly abrasion resistant, the special twist construction provides exceptional sensitivity making 4D™ Camo Braid perfect for carp fishing.

TERMINAL TACKLE

LEAD CLIPS PACK CAMO

- Probably the most popular method for attaching a lead with safety in mind.
- The force required to 'ditch' the lead is pre-determined by how far the tail rubber is pushed onto the clip.
- Each clip features a hole to accept the small pin to lock the swivel securely into the body (which is essential for the clip to work properly) but can be removed by using the supplied tool.

CODE	COLOUR	DIAMETER (MM)	QUANTITY	GENCOD	TRADE PACK	RRP (€)

LINE ALIGNER

- These pre-formed hook sleeves create the perfect Line Aligner every time.
- By having the hooklink exit the front of the hook, the turning effect and efficiency of the rig is increased.
- A more aggressive hook angle is also created, making the rig harder to eject.

BAITING UP

MAGNUM THROWING STICK

- Made from 3K carbon fibre, not only is it extremely accurate, but with its ultra-light construction helps avoid arm and shoulder strain, particularly when baiting heavily. Easy grip handle to avoid the throwing stick twisting whilst in use and finished with a wrist retaining strap. Supplied in a Neoprene case.

Available in 3 sizes:

- The XLarge, Long Distance version is designed for long distances or larger baits and is 35% longer than the existing model. This extra length helps to propel the boilies up to 20m further than a standard length throwing stick.
- XLarge - For boilies up to 26mm.
- Large - For boilies up to 22mm.

DISTANCE STICKS

- Designed to easily measure your fishing distance, aiding consistent accurate casting.
- Comprises of two black anodized aluminium 60cm banksticks, with very strong tops so they can be hammered into the ground or you can utilise the auger points so they can be screwed-in instead. An additional practical feature is the reflective tape around the top, making them very easy to be used at night.
- Supplied with a spacing cord and carrying bag.

TRIPOD SQUARE BUCKET STAND

- Designed for use when spodding, particularly useful when applying large quantities of bait. The design also aids accuracy, helping to avoid constantly moving position when reloading the spod. Best used with square or rectangular bucket.
- Made from a black coated steel frame, combined with adjustable legs and a support for a rod, shovel or towel. Supplied in its own carry case.
- The ideal partner for the Carp Spirit 10 and 17L Square Buckets.
