CASTING

MINNOW SUPER VIBRAX®

This long-casting spinner has been designed with a natural baitfish profile in place of a traditional spinner body. When retrieved, the blade spins and flashes in front of the vibrating lure body to catch the attention of any nearby predator fish. The elongated aerodynamic design cuts through air and water with ease, ensuring each cast reaches its maximum potential distance.

FEATURES

- Vibrating body imitates a lively baitfish
- Blade spins and flashes, even on descent
- Long-casting design
- Fitted with VMC® hook

CASTING

VIBRAX® CHASER

Create the illusion of a small baitfish being chased down by a slightly larger baitfish with the Vibrax® Chaser. The soft trailer “chases” the main body and blade imitating a hungry, distracted baitfish, creating intense flash and commotion to nearby predators. The patented two-part body, which virtually eliminates line twist is really what sets all Blue Fox spinners apart. Whether casting for still water predators such as perch and chub, or working fast moving rivers for trout and salmon, this low-frequency spinner is going to create the noise and vibration required to trigger a strike.

FEATURES

- 45° Mid-depth blade runs 0.6 – 1.2 meters
- Patented 2-part, machined brass main body
- Rattling, free-turning brass gear
- Stainless steel shaft
- Soft-touch baitfish trailer
- Available in a variety of color combinations
- Fitted with VMC® hooks
