NEW BOILIE PACKAGING FOR 2026

We've taken the next step forward in our boilie packaging, modernising both the design and materials. The new look is not only more appealing to consumers but also more retail-friendly—enhancing shelf presence, improving presentation, and ultimately driving increased sales.

NEW PRODUCTS 2026

2026 sees the exciting launch of a brand-new Dynamite boilie: Peppered Fruit. This unique and highly attractive birdfood boilie is packed with fruity attractors and a fiery kick of pepper—making it a surefire winner on waters across Europe, all year round.

We've also expanded our hookbait ranges, adding new options to Peppered Squid, Hot Crab & Krill, N-Tigers, and Fluro Two Tone.

Following the strong success of the 300g Carptec boilie bags in 2025, we're pleased to announce that all flavours are now available in both 15mm and 20mm sizes.

Our ever-popular Frenzied Particles range welcomes new additions: Tiger Nuts in a highly attractive Betaine & Molasses infused version, and for added convenience, a ready-to-go Hempseed & Sweetcorn mix—combining two of the most effective fish attractors of all time.

Due to the growing popularity of our Big Fish Feeder Ready Pellets, we've added a new Garlic variant—certain to become a firm favourite among competition anglers.
