CASTING JIGS

THUNDER JIG BLADED

The Thunder Jig Bladed has an asymmetric design that produces a static slash action with medium to fast retrieves. This is a great all-round jig that will work in all conditions. The Bladed hook adds lots of flash on a steady retrieve and will get strikes when fishing pressure is high. The additional traction will slow down the jig when used in shallow water. In-line single hook will decrease the risk of getting snagged in obstacles.

- Asymmetric design
- Inline VMC® hook
- Swivel blade
- Multi-species

RODS

TROLLING

SODWANA

The Sodwana is developed to give the angler an excellent and well-built rod still at a very affordable price. The blank is soft but still very responsive under load. The Slick butt will prevent damage in the rod holder and make the rod stiffer in the lower part. A roller tip is used where the line has the most angle and stress, releasing pressure during an extended fight. Named after a famous spot in South Africa, Sodwana can travel the world over and help you land your dream fish.

FEATURES

- Super stiff blank action
- Incredible backbone
- Roller tip and heavy-duty guides
- Performance Slick Butt
- Aluminum reel seat
